"Ice Cream 'n Things"

DESIGNED BY FRANCES SCHATZ

"ICE CREAM PARFAIT"

"ICE CREAM'n THINGS"

Everyone loves babies and what better way to show it than by expressing that feeling with your talent and this beautiful collection by Frances Schatz. Beautiful Ice Cream colors are effectively used in an elegant "puff" motif Cover and Baby Set, we call "Ice Cream Parfait". It reflects a classic design to wrap that special someone in warm, cozy comfort. The design is more subdued, but equally beautiful done in one color.

The Ripple Cover is called "Spumoni" and is reminiscent of covers used in generations past, but effectively shown in a soft combination of colors that reflect today's broader use of color for babies, and it's edged in a delicate picot stitch.

Frances Schatz has a feeling for classic design and designs for babies, and it's with a special sense of pride we bring you this collection. The pride will be yours, when you receive the compliments you surely will receive, when you add this collection to your list of accomplishments.

GENERAL INSTRUCTIONS

TIMELY SUGGESTIONS

Stitch Gauge

A correct stitch gauge is necessary to assure that your finished garment will fit properly. For happy knitting or crocheting, check your stitch gauge as follows: With the size needles (or hook) recommended and the yarn specified in the pattern, knit (or crochet) a small swatch in the pattern designated in the instructions. Count the number of stitches and rows (or patterns) in at least two inches (or more if the gauge indicated in the instructions requires) to check your stitch gauge. If you have fewer stitches per inch than specified you are working too loose, so change to smaller needles (or hook). If you have more stitches per inch than specified you are working too tight, so change to larger needles (or hook). The size of your needles or hook does not matter, but do not start until you are getting the gauge called for in the instructions.

Blocking

To block or steam a finished garment, pin flat at edges on pressing board, back side up, with rustproof pins. Steam one side and when dry, turn over, re-pin and steam front side. Do not let weight of iron rest on garment. Leave pinned until thoroughly dry, then steam all seams, facings and edgings. Do not steam ribbing.

Washing Instructions

Use method which is convenient for you. However, for pure woolen garments, always launder with cold water by hand, using a cold water wash.

Machine Wash: Use cool to moderate setting, gentle cycle, cold water soap or mild detergent. Do not bleach. **Always use a fabric softener in the final rinse.** If machine washed, article should be machine dried at moderate temperature and cycle.

Hand wash: Use cold or lukewarm water, cold water soap or mild detergent. Squeeze suds through article, do not rub. Be sure to rinse thoroughly, using a fabric softener. Do not wring or twist, squeeze gently. Roll article in towel to remove excess moisture. Dry on flat surface, blocking to original size. Machine drying may also be used. Do not hang. Do not dry in direct sunlight.

NOTE: The addition of a few drops of white vinegar added to the final rinse will set the color and prevent "running" of one color into another.
